VEDRANTA BANK

Transaction Troubleshooting and Support Guide

Document ID: VDB-CS-003

Category: Customer Support

Version: 1.0 **As of:** 17 October 2026

Headquarters: Coimbatore, Tamil Nadu, India

FICTIONAL DOCUMENT FOR RAG DEVELOPMENT AND TESTING

This document describes a fictional bank created for a demonstration knowledge base. It is not evidence of a real institution, licence, financial product, employment offer, or binding policy. All bank-specific figures are synthetic unless explicitly identified as actual legal requirements.

Document Control and Master Facts

Field	Controlled value
Bank name	Vedranta Bank
Headquarters	Coimbatore, Tamil Nadu, India
Institution type	Fictional Indian commercial financial bank
Customer segments	retail customers, small and medium enterprises (SMEs), corporate clients, agricultural customers, rural customers, and eligible institutions
Owner	Office of Policy and Knowledge Management
Version / as-of	1.0 / 17 October 2026
Contact placeholders	1800-000-VED (fictional demonstration number; not a real helpline); support@vedranta.example (fictional reserved example domain)
Standard customer service hours	Monday–Friday, 9:30 a.m.–5:00 p.m.; Saturday, 9:30 a.m.–1:00 p.m.; Sundays and bank holidays closed, except digital self-service channels
Dataset status	Fictional; for RAG development and testing only

Source precedence

Applicable law and current regulatory directions prevail. Current approved product schedules, signed customer agreements, formal sanction letters, insurer plan documents, and approved HR terms govern their respective subjects. This general document summarizes rather than overrides them.

RAG instruction

Index content with document ID, section title, version, effective date, category, and access level. Treat all contacts and product figures in this synthetic corpus as fictional test values.

Contents and Retrieval Map

The following pages are organized as focused sections so retrieval can identify the most relevant passage. The section title should be stored as metadata for each extracted chunk.

01. Purpose and safe troubleshooting
02. Start with the transaction type
03. Safe information to collect
04. Debit shown but recipient not credited
05. Pending transaction
06. Failed UPI payment
07. UPI collect request safety
08. Incorrect UPI transfer
09. IMPS transfer issue
10. NEFT transfer issue
11. RTGS transfer issue
12. Debit card declined
13. ATM cash not dispensed but account debited
14. Duplicate card charge
15. Card lost or stolen
16. Suspicious card transaction
17. Internet banking login failure
18. OTP not received
19. Mobile app not working
20. Beneficiary not added
21. Wrong beneficiary details
22. Bill payment failure
23. Standing instruction failure
24. Cash deposit discrepancy
25. Cheque deposit delay
26. Account statement discrepancy
27. Loan EMI debit issue
28. Fixed deposit maturity issue
29. Refund not received
30. Transaction reference handling
31. Fraud suspicion priority
32. Account blocked or restricted
33. Network outage
34. Customer in a hurry
35. Evidence checklist
36. Escalation to payment operations
37. Escalation to fraud team
38. Escalation to grievance team
39. Expected timelines

40. Multilingual explanation
41. Example: debited UPI payment
42. Example: suspicious call
43. Example: duplicate payment
44. Example: cash withdrawal issue
45. Troubleshooting closure
46. RAG source precedence
47. Guide review
48. Fictional dataset notice

When answering a question, retrieve the narrowest relevant section and check its context. Do not combine unrelated policy details merely because they occur in the same PDF.

Purpose and safe troubleshooting

Provides general steps for common transaction issues. Troubleshooting must not bypass authentication, payment-system rules, or fraud controls.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about purpose and safe troubleshooting. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Purpose and safe troubleshooting; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 01 | **Version:** 1.0

Start with the transaction type

Identify whether the issue involves UPI, IMPS, NEFT, RTGS, debit card, ATM, bill payment, or internal transfer.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about start with the transaction type. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Start with the transaction type; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 02 | **Version:** 1.0

Safe information to collect

Ask for approximate time, amount, payment method, status shown, and a transaction reference if available. Do not ask for OTP, PIN, password, or card security code.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about safe information to collect. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Safe information to collect; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 03 | **Version:** 1.0

Debit shown but recipient not credited

Advise the customer to retain the transaction reference, check status in the official channel, avoid repeating a large payment until status is understood, and use the approved dispute route.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about debit shown but recipient not credited. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Debit shown but recipient not credited; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 04 | **Version:** 1.0

Pending transaction

A pending status may reflect processing or reconciliation. Do not label it successful or failed without an authoritative status.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about pending transaction. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Pending transaction; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 05 | **Version:** 1.0

Failed UPI payment

Check the app's displayed status and account debit, retain the UPI transaction reference, and follow the applicable payment-system dispute process.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about failed upi payment. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Failed UPI payment; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 06 | **Version:** 1.0

UPI collect request safety

Customers should approve only requests they understand and expect. Receiving money generally does not require entering a UPI PIN to collect it.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about upi collect request safety. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: UPI collect request safety; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 07 | **Version:** 1.0

Incorrect UPI transfer

Promptly report through the verified payment provider/bank channel. Recovery may depend on recipient cooperation, applicable rules, and investigation; do not guarantee reversal.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about incorrect upi transfer. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Incorrect UPI transfer; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 08 | **Version:** 1.0

IMPS transfer issue

Capture the reference and status, check the approved channel, and route to payment operations when status remains unclear.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about imps transfer issue. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: IMPS transfer issue; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 09 | **Version:** 1.0

NEFT transfer issue

Check beneficiary details, transaction reference, processing status, and applicable settlement arrangements. Avoid asserting a fixed settlement time without current rules.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about neft transfer issue. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: NEFT transfer issue; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 10 | **Version:** 1.0

RTGS transfer issue

Confirm transaction eligibility, submitted details, and status using the approved channel. Escalate unresolved high-value transfer issues promptly.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about rtgs transfer issue. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: RTGS transfer issue; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 11 | **Version:** 1.0

Debit card declined

Possible causes include card status, limits, insufficient available balance, merchant restrictions, network errors, or security controls. Never infer the exact reason without system evidence.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about debit card declined. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Debit card declined; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 12 | **Version:** 1.0

ATM cash not dispensed but account debited

Record the ATM location or identifier if available, date, amount, and reference. Report promptly through the approved card/ATM dispute route.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about atm cash not dispensed but account debited. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: ATM cash not dispensed but account debited; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 13 | **Version:** 1.0

Duplicate card charge

Compare transaction records and merchant receipts, determine whether one or both entries are posted or pending, and submit a dispute if needed.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about duplicate card charge. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Duplicate card charge; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 14 | **Version:** 1.0

Card lost or stolen

Use the verified official card-blocking channel immediately. Do not wait for the next business day if an emergency route is available.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about card lost or stolen. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Card lost or stolen; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 15 | **Version:** 1.0

Suspicious card transaction

Secure the card/account through official controls, report the transaction, and follow the fraud team's instructions.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about suspicious card transaction. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Suspicious card transaction; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 16 | **Version:** 1.0

Internet banking login failure

Use the official recovery route, check basic connectivity, and avoid repeated attempts if the account may be locked. Never share credentials with support.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about internet banking login failure. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Internet banking login failure; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 17 | **Version:** 1.0

OTP not received

Check registered contact details and device/network conditions, wait for the permitted retry interval, and use official support if unresolved. Never share an OTP with an agent.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about otp not received. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: OTP not received; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 18 | **Version:** 1.0

Mobile app not working

Check the official app version, connectivity, device compatibility, and approved status page if available. Do not install unofficial packages or remote-access tools suggested by strangers.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about mobile app not working. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Mobile app not working; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 19 | **Version:** 1.0

Beneficiary not added

Confirm the displayed status and any security cooling period in the current channel guide. Do not invent a universal activation delay.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about beneficiary not added. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Beneficiary not added; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 20 | **Version:** 1.0

Wrong beneficiary details

If a transfer has not been submitted, correct the details before confirming. If submitted, report immediately through the approved route; recovery is not guaranteed.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about wrong beneficiary details. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Wrong beneficiary details; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 21 | **Version:** 1.0

Bill payment failure

Check biller reference, debit status, receipt, and due date. Route unresolved cases to the payment channel and biller as applicable.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about bill payment failure. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Bill payment failure; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 22 | **Version:** 1.0

Standing instruction failure

Check instruction status, funding, scheduled date, and any notification. Do not assume the instruction will retry unless its terms say so.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about standing instruction failure. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Standing instruction failure; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 23 | **Version:** 1.0

Cash deposit discrepancy

Retain the receipt and report the date, location, amount, and machine or counter reference. Reconciliation should be handled by authorized operations staff.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about cash deposit discrepancy. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Cash deposit discrepancy; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 24 | **Version:** 1.0

Cheque deposit delay

Check the deposit acknowledgement, clearing status, and any return message. Refer to the applicable clearing process rather than promising a date.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about cheque deposit delay. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Cheque deposit delay; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 25 | **Version:** 1.0

Account statement discrepancy

Compare posted entries and dates, identify the disputed item, and register a case with supporting evidence. Never expose another account's data.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about account statement discrepancy. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Account statement discrepancy; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 26 | **Version:** 1.0

Loan EMI debit issue

Check the loan schedule, payment method, and bank statement. A missed or duplicated debit requires a formal servicing review.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about loan emi debit issue. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Loan EMI debit issue; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 27 | **Version:** 1.0

Fixed deposit maturity issue

Confirm maturity date, payout instruction, renewal setting, and account details. Escalate any mismatch to deposit operations.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about fixed deposit maturity issue. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Fixed deposit maturity issue; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 28 | **Version:** 1.0

Refund not received

Identify the original transaction and merchant/provider, determine whether a refund reference exists, and follow the relevant dispute process.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about refund not received. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Refund not received; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 29 | **Version:** 1.0

Transaction reference handling

Use references only in approved channels and avoid posting them publicly. A reference number is not a substitute for authentication.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about transaction reference handling. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Transaction reference handling; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 30 | **Version:** 1.0

Fraud suspicion priority

If the customer suspects fraud, prioritize securing access and reporting rather than lengthy general troubleshooting.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about fraud suspicion priority. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Fraud suspicion priority; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 31 | **Version:** 1.0

Account blocked or restricted

Explain that restrictions can arise for different reasons and require authorized review. Do not reveal internal detection rules or advise evasion.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about account blocked or restricted. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Account blocked or restricted; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 32 | **Version:** 1.0

Network outage

Check only approved incident information. Offer safe alternatives where authorized and do not suggest repeatedly resubmitting transactions without checking status.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about network outage. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Network outage; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 33 | **Version:** 1.0

Customer in a hurry

Explain the safest immediate step and what is known. Avoid guaranteeing a reversal, credit, or completion time.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer in a hurry. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer in a hurry; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 34 | **Version:** 1.0

Evidence checklist

Keep receipts, transaction IDs, timestamps, merchant messages, and relevant screenshots with sensitive details masked. Do not send PINs or passwords.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about evidence checklist. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Evidence checklist; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 35 | **Version:** 1.0

Escalation to payment operations

Escalate when the official status is inconsistent, money is debited without expected credit, repeated failure persists, or an authorized investigation is required.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about escalation to payment operations. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Escalation to payment operations; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 36 | **Version:** 1.0

Escalation to fraud team

Escalate unauthorized activity, credential compromise, impersonation, suspected account takeover, or suspicious remote-access instructions.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about escalation to fraud team. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 37 | **Version:** 1.0

Escalation to grievance team

Use the complaint route if a service issue remains unresolved or the customer disputes the handling of the case.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about escalation to grievance team. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 38 | **Version:** 1.0

Expected timelines

Timelines depend on payment method, applicable rules, evidence, and investigation. Use the current approved schedule; this guide intentionally does not invent universal deadlines.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about expected timelines. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Search terms: Expected timelines; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 39 | **Version:** 1.0

Multilingual explanation

Translate instructions without changing transaction status terms, amounts, dates, or safety warnings. Explain unfamiliar terms in simple language.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about multilingual explanation. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Multilingual explanation; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 40 | **Version:** 1.0

Example: debited UPI payment

The assistant asks only safe transaction details, advises checking status, discourages blind repetition, and routes unresolved cases to the official dispute process.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: debited upi payment. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Example: debited UPI payment; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 41 | **Version:** 1.0

Example: suspicious call

The assistant tells the customer not to share secrets, ends the suspicious interaction, uses a verified channel, and reports suspected fraud.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: suspicious call. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 42 | **Version:** 1.0

Example: duplicate payment

The assistant checks whether entries are pending or posted, gathers references, and routes the issue to the proper payment dispute workflow.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: duplicate payment. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Example: duplicate payment; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 43 | **Version:** 1.0

Example: cash withdrawal issue

The assistant captures ATM details and directs the customer to the approved dispute route without guaranteeing reimbursement.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: cash withdrawal issue. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 44 | **Version:** 1.0

Troubleshooting closure

Summarize what was checked, what remains unknown, the next safe step, and the reference number only if created by an authorized system.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about troubleshooting closure. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Troubleshooting closure; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 45 | **Version:** 1.0

RAG source precedence

For a payment-specific rule, use the current approved payment policy and applicable official rules over a general troubleshooting example.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about rag source precedence. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: RAG source precedence; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-003 | **Section:** 46 | **Version:** 1.0

Guide review

Review after payment-network changes, channel changes, security incidents, or revisions to dispute procedures.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about guide review. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Guide review; Vedranta Bank; VDB-CS-003; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.
