VEDRANTA BANK

Products, Services and Banking Channels Catalogue

Document ID: VDB-GEN-002

Category: Bank Profile

Version: 1.0 **As of:** 17 October 2026

Headquarters: Coimbatore, Tamil Nadu, India

FICTIONAL DOCUMENT FOR RAG DEVELOPMENT AND TESTING

This document describes a fictional bank created for a demonstration knowledge base. It is not evidence of a real institution, licence, financial product, employment offer, or binding policy. All bank-specific figures are synthetic unless explicitly identified as actual legal requirements.

Document Control and Master Facts

Field	Controlled value
Bank name	Vedranta Bank
Headquarters	Coimbatore, Tamil Nadu, India
Institution type	Fictional Indian commercial financial bank
Customer segments	retail customers, small and medium enterprises (SMEs), corporate clients, agricultural customers, rural customers, and eligible institutions
Owner	Office of Policy and Knowledge Management
Version / as-of	1.0 / 17 October 2026
Contact placeholders	1800-000-VED (fictional demonstration number; not a real helpline); support@vedranta.example (fictional reserved example domain)
Standard customer service hours	Monday–Friday, 9:30 a.m.–5:00 p.m.; Saturday, 9:30 a.m.–1:00 p.m.; Sundays and bank holidays closed, except digital self-service channels
Dataset status	Fictional; for RAG development and testing only

Source precedence

Applicable law and current regulatory directions prevail. Current approved product schedules, signed customer agreements, formal sanction letters, insurer plan documents, and approved HR terms govern their respective subjects. This general document summarizes rather than overrides them.

RAG instruction

Index content with document ID, section title, version, effective date, category, and access level. Treat all contacts and product figures in this synthetic corpus as fictional test values.

Contents and Retrieval Map

The following pages are organized as focused sections so retrieval can identify the most relevant passage. The section title should be stored as metadata for each extracted chunk.

01. Purpose and scope
02. Service availability
03. Savings accounts
04. Current accounts
05. Fixed deposits
06. Recurring deposits
07. Debit cards
08. Domestic transfers
09. UPI services
10. Internet banking
11. Mobile banking
12. Personal loans
13. Home loans
14. SME loans
15. Agricultural and rural services
16. Corporate services
17. Customer service
18. Fees and charges
19. Interest calculation
20. Account statements
21. Cheque services
22. Standing instructions
23. Nomination
24. Joint accounts
25. Customer profile updates
26. Account closure
27. Digital service limitations
28. Service request tracking
29. Product comparison
30. Customer suitability
31. Accessibility and language
32. Security controls
33. Dispute routing
34. Complaints and escalation
35. Product terms hierarchy
36. Rates register governance
37. Example: savings enquiry
38. Example: deposit maturity
39. Example: transfer issue

40. Example: loan enquiry
41. Example: unavailable service
42. Frequently asked question: accounts
43. Frequently asked question: interest
44. Frequently asked question: loan approval
45. Frequently asked question: service hours
46. Frequently asked question: lost card
47. Catalogue maintenance
48. Dataset disclaimer

When answering a question, retrieve the narrowest relevant section and check its context. Do not combine unrelated policy details merely because they occur in the same PDF.

Purpose and scope

This catalogue describes the fictional services of Vedranta Bank for customer information and RAG retrieval. It summarizes products but does not replace product-specific terms or a signed agreement.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about purpose and scope. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Purpose and scope; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 01 | **Version:** 1.0

Service availability

Availability depends on customer eligibility, account status, verification, channel access, service maintenance, risk checks, and current approved terms.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about service availability. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Service availability; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 02 | **Version:** 1.0

Savings accounts

The standard illustrative savings account has a fictional reference rate of 3.00% per annum (illustrative fictional rate; subject to product terms). The actual product schedule, balance conditions, charges, and eligibility must be checked before answering a specific customer.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about savings accounts. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Savings accounts; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 03 | **Version:** 1.0

Current accounts

Current accounts are designed for eligible businesses and other permitted customer types. Opening requires entity verification, authorized signatories, and relevant due diligence.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about current accounts. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Current accounts; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 04 | **Version:** 1.0

Fixed deposits

The illustrative standard 12-month retail fixed deposit rate is 6.75% per annum for the illustrative 12-month standard retail deposit. Other tenures, customer categories, payout options, and premature withdrawal terms may differ.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about fixed deposits. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Fixed deposits; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 05 | **Version:** 1.0

Recurring deposits

Recurring deposits allow scheduled contributions over an agreed term. Missed instalment treatment, minimum contribution, maturity value, and charges must follow the specific approved product schedule.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about recurring deposits. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Recurring deposits; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 06 | **Version:** 1.0

Debit cards

Eligible account holders may request a debit card. Issuance, activation, usage limits, international use, replacement, and charges are governed by the card terms.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about debit cards. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Debit cards; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 07 | **Version:** 1.0

Domestic transfers

The catalogue may describe NEFT, RTGS, IMPS, and UPI as available service categories where applicable. The assistant must explain that limits, availability, and settlement depend on channel and network rules.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about domestic transfers. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Domestic transfers; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 08 | **Version:** 1.0

UPI services

UPI usage depends on supported account linkage, device and app configuration, authentication, network availability, and applicable payment-system rules. Customers must never share their UPI PIN.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about upi services. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: UPI services; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 09 | **Version:** 1.0

Internet banking

Internet banking can provide eligible account viewing, statements, transfers, and service requests. Access is subject to registration, authentication, risk controls, and feature availability.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about internet banking. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Internet banking; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 10 | **Version:** 1.0

Mobile banking

Mobile banking supports approved features through the bank's fictional application. The app name, download link, and live store listing must not be fabricated for a real deployment.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about mobile banking. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Mobile banking; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 11 | **Version:** 1.0

Personal loans

The illustrative personal-loan rate range is 12.50%–18.00% per annum, based on eligibility and credit assessment. Eligibility, loan amount, tenor, fees, and approval depend on assessment and the sanction letter.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about personal loans. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Personal loans; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 12 | **Version:** 1.0

Home loans

The illustrative home-loan rate range is 8.50%–10.50% per annum, based on eligibility and credit assessment. Property assessment, legal checks, borrower assessment, contribution, and disbursement conditions may apply.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about home loans. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Home loans; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 13 | **Version:** 1.0

SME loans

The illustrative SME-loan rate range is 11.50%–16.00% per annum, based on eligibility and credit assessment. Business vintage, cash flow, financial records, security where required, and credit assessment may affect the decision.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about sme loans. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: SME loans; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 14 | **Version:** 1.0

Agricultural and rural services

Eligible agricultural and rural customers may enquire about deposit, payment, and credit products. Product availability and any scheme-specific eligibility must be confirmed from an approved current source.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about agricultural and rural services. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Agricultural and rural services; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 15 | **Version:** 1.0

Corporate services

Corporate services may include accounts, payment workflows, collections, and credit. Mandates, signing powers, limits, and contracts are customer-specific.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about corporate services. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Corporate services; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 16 | **Version:** 1.0

Customer service

Standard fictional service hours are stated in the master profile. Emergency reporting and digital self-service may use separate arrangements.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer service. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer service; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 17 | **Version:** 1.0

Fees and charges

All fees must be disclosed before a customer commits to a service where required. This catalogue does not invent a fee where the approved schedule is silent.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about fees and charges. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 18 | **Version:** 1.0

Interest calculation

Interest calculations depend on the product, balance, rate, compounding or payout convention, day-count basis, tax treatment, and applicable terms.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about interest calculation. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 19 | **Version:** 1.0

Account statements

Customers may request or download statements through supported channels. The assistant should not expose account-specific data without authentication and authorization.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about account statements. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 20 | **Version:** 1.0

Cheque services

Cheque book issuance, stop-payment requests, clearing, returns, and related fees are governed by account terms and current operating procedures.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about cheque services. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Cheque services; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 21 | **Version:** 1.0

Standing instructions

Customers may establish, amend, or cancel eligible recurring instructions through approved authenticated channels. Confirmation should be retained.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about standing instructions. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Standing instructions; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 22 | **Version:** 1.0

Nomination

Nomination availability and processing follow the applicable account rules and law. The assistant should explain the process without claiming a nominee automatically becomes the legal owner in every circumstance.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about nomination. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Nomination; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 23 | **Version:** 1.0

Joint accounts

Joint account operating modes and signing rules must be selected and recorded. Changes require required verification and consent.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about joint accounts. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Joint accounts; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 24 | **Version:** 1.0

Customer profile updates

Contact, address, and identity-profile changes require the approved verification process. A request is not complete until the bank confirms the update.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer profile updates. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer profile updates; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 25 | **Version:** 1.0

Account closure

Closure requires identity and authority checks, settlement of outstanding items, handling of residual balances, and completion of required forms.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about account closure. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Account closure; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 26 | **Version:** 1.0

Digital service limitations

Maintenance, connectivity, third-party outages, security blocks, or incomplete verification can temporarily restrict digital features.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about digital service limitations. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Digital service limitations; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 27 | **Version:** 1.0

Service request tracking

A service request should have a reference identifier, recorded category, submission date, and status. Status updates must come from an authorized live system if personalized.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about service request tracking. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Service request tracking; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 28 | **Version:** 1.0

Product comparison

Comparisons should state the customer's objective and compare only like-for-like rates, fees, eligibility, tenor, and features.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about product comparison. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Product comparison; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 29 | **Version:** 1.0

Customer suitability

Staff should explain costs and risks in plain language and avoid promising that a product is best for every customer.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer suitability. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer suitability; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 30 | **Version:** 1.0

Accessibility and language

Customer explanations should use the requested language where supported, while preserving the meaning of financial and legal terms.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about accessibility and language. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Accessibility and language; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 31 | **Version:** 1.0

Security controls

The bank will not ask customers to disclose their OTP, PIN, full password, or card security code to staff over an unsolicited communication.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about security controls. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Security controls; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 32 | **Version:** 1.0

Dispute routing

Payment disputes are routed according to the payment method, transaction status, applicable rules, and approved complaint procedure.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about dispute routing. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Dispute routing; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 33 | **Version:** 1.0

Complaints and escalation

Customers may register service complaints through verified official channels. Placeholder contacts in this dataset are not operational channels.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about complaints and escalation. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Complaints and escalation; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 34 | **Version:** 1.0

Product terms hierarchy

Applicable law and regulation prevail, followed by the current approved product terms and customer agreement. This catalogue is a summary.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about product terms hierarchy. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Product terms hierarchy; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 35 | **Version:** 1.0

Rates register governance

The product team owns rates; the policy owner controls the approved schedule. Any change requires versioning and propagation to related documents.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about rates register governance. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Rates register governance; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 36 | **Version:** 1.0

Example: savings enquiry

For a savings-rate question, identify the exact account variant and effective date, then retrieve the approved rates schedule rather than relying only on this summary.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: savings enquiry. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 37 | **Version:** 1.0

Example: deposit maturity

For a maturity question, confirm deposit amount, start date, tenor, rate, payout convention, and premature-withdrawal status before calculating.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: deposit maturity. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 38 | **Version:** 1.0

Example: transfer issue

For a transfer issue, ask for the payment method and whether the account was debited, but never request PINs or OTPs. Provide safe reporting steps.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: transfer issue. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 39 | **Version:** 1.0

Example: loan enquiry

Explain eligibility and document requirements, then state that an application is subject to assessment and formal sanction.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 40 | **Version:** 1.0

Example: unavailable service

If a feature is not in the approved catalogue, the chatbot should say that availability is not confirmed and route the question to support.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.

A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 41 | **Version:** 1.0

Frequently asked question: accounts

Different accounts serve different needs. The assistant should compare eligibility, transaction patterns, charges, and access rather than making assumptions.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about frequently asked question: accounts. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Frequently asked question: accounts; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 42 | **Version:** 1.0

Frequently asked question: interest

Rates shown here are fictional test data and may not represent a live offer. A real deployment must query a current approved schedule.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about frequently asked question: interest. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 43 | **Version:** 1.0

Frequently asked question: loan approval

Meeting minimum eligibility does not guarantee approval. A formal decision follows verification and credit assessment.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about frequently asked question: loan approval. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 44 | **Version:** 1.0

Frequently asked question: service hours

Use the standard service hours in the master profile; do not infer branch-specific holiday hours without a current directory.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about frequently asked question: service hours. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 45 | **Version:** 1.0

Frequently asked question: lost card

The customer should use a verified official blocking route promptly and report unauthorized transactions through the approved process.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about frequently asked question: lost card. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Frequently asked question: lost card; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 46 | **Version:** 1.0

Catalogue maintenance

The catalogue is reviewed after a product launch, material policy change, rate update, channel change, or at least annually.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about catalogue maintenance. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Catalogue maintenance; Vedranta Bank; VDB-GEN-002; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-002 | **Section:** 47 | **Version:** 1.0
