VEDRANTA BANK

Customer Service Handbook

Document ID: VDB-CS-001

Category: Customer Support

Version: 1.0 **As of:** 17 October 2026

Headquarters: Coimbatore, Tamil Nadu, India

FICTIONAL DOCUMENT FOR RAG DEVELOPMENT AND TESTING

This document describes a fictional bank created for a demonstration knowledge base. It is not evidence of a real institution, licence, financial product, employment offer, or binding policy. All bank-specific figures are synthetic unless explicitly identified as actual legal requirements.

Document Control and Master Facts

Field	Controlled value
Bank name	Vedranta Bank
Headquarters	Coimbatore, Tamil Nadu, India
Institution type	Fictional Indian commercial financial bank
Customer segments	retail customers, small and medium enterprises (SMEs), corporate clients, agricultural customers, rural customers, and eligible institutions
Owner	Office of Policy and Knowledge Management
Version / as-of	1.0 / 17 October 2026
Contact placeholders	1800-000-VED (fictional demonstration number; not a real helpline); support@vedranta.example (fictional reserved example domain)
Standard customer service hours	Monday–Friday, 9:30 a.m.–5:00 p.m.; Saturday, 9:30 a.m.–1:00 p.m.; Sundays and bank holidays closed, except digital self-service channels
Dataset status	Fictional; for RAG development and testing only

Source precedence

Applicable law and current regulatory directions prevail. Current approved product schedules, signed customer agreements, formal sanction letters, insurer plan documents, and approved HR terms govern their respective subjects. This general document summarizes rather than overrides them.

RAG instruction

Index content with document ID, section title, version, effective date, category, and access level. Treat all contacts and product figures in this synthetic corpus as fictional test values.

Contents and Retrieval Map

The following pages are organized as focused sections so retrieval can identify the most relevant passage. The section title should be stored as metadata for each extracted chunk.

01. Purpose and service philosophy
02. Service hours
03. First-contact resolution
04. Identity verification
05. Privacy at the service desk
06. Customer communication
07. Vernacular service
08. Opening a service request
09. Request reference
10. Service-level expectations
11. Account opening enquiry
12. Account maintenance request
13. Statement request
14. Card activation
15. Lost card support
16. Digital login issue
17. Failed payment query
18. Loan application enquiry
19. Loan status enquiry
20. Deposit maturity enquiry
21. Fee or rate dispute
22. Complaint versus service request
23. Complaint acknowledgement
24. De-escalation
25. Vulnerable customer support
26. Accessibility requests
27. Fraud indicators
28. Security language
29. Customer data correction
30. Third-party callers
31. Deceased customer enquiries
32. Business customer support
33. Complaint escalation
34. Call and chat records
35. Quality assurance
36. Service recovery
37. Wrong information correction
38. No-answer handling
39. Multilingual retrieval

40. Customer feedback
41. Example: password reset
42. Example: disputed fee
43. Example: angry customer
44. Example: missing information
45. Customer closure summary
46. Staff responsibilities
47. Handbook review
48. Customer support quick reference
49. Fictional dataset notice

When answering a question, retrieve the narrowest relevant section and check its context. Do not combine unrelated policy details merely because they occur in the same PDF.

Purpose and service philosophy

The handbook standardizes fictional customer support for Vedranta Bank. Staff should be respectful, accurate, accessible, and transparent about what can and cannot be done.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about purpose and service philosophy. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Purpose and service philosophy; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 01 | **Version:** 1.0

Service hours

Standard service hours are Monday–Friday, 9:30 a.m.–5:00 p.m.; Saturday, 9:30 a.m.–1:00 p.m.; Sundays and bank holidays closed, except digital self-service channels. Do not imply that all branch counters or human support operate around the clock.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about service hours. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Service hours; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 02 | **Version:** 1.0

First-contact resolution

Resolve straightforward questions at first contact when the approved knowledge source is sufficient. Complex, disputed, or high-risk cases should be routed rather than guessed.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about first-contact resolution. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: First-contact resolution; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 03 | **Version:** 1.0

Identity verification

Before discussing account-specific details or making changes, follow the approved authentication procedure. Do not rely on personal familiarity or information volunteered in an unsecured channel.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about identity verification. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Identity verification; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 04 | **Version:** 1.0

Privacy at the service desk

Confirm that conversations and screens cannot be casually overheard or viewed. Share customer information only with authorized personnel.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about privacy at the service desk. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Privacy at the service desk; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 05 | **Version:** 1.0

Customer communication

Use plain language, explain next steps, avoid unexplained acronyms, and confirm the customer's understanding for consequential actions.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer communication. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer communication; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 06 | **Version:** 1.0

Vernacular service

Where supported, respond in the customer's preferred language. Preserve key terms and numbers accurately; offer a clear restatement if translation could affect understanding.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about vernacular service. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Vernacular service; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 07 | **Version:** 1.0

Opening a service request

Record request type, date and time, channel, necessary customer verification, issue summary, and requested outcome.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about opening a service request. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Opening a service request; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 08 | **Version:** 1.0

Request reference

Provide the system-generated reference number where available. Never invent a reference number or claim that a request was registered if the system did not confirm it.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about request reference. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Request reference; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 09 | **Version:** 1.0

Service-level expectations

Use approved service targets and explain dependencies. A target is not a guarantee where external verification, missing information, or network delays apply.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about service-level expectations. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Service-level expectations; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 10 | **Version:** 1.0

Account opening enquiry

Explain product options and required documents from the current account-opening policy. Make clear that activation follows successful verification and confirmation.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about account opening enquiry. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Account opening enquiry; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 11 | **Version:** 1.0

Account maintenance request

Explain the supported route for contact, address, nomination, and mandate changes. Sensitive changes require appropriate verification.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about account maintenance request. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Account maintenance request; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 12 | **Version:** 1.0

Statement request

Guide customers to authenticated channels or the approved request process. Never send a statement to an unverified email or disclose it in a public chat.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about statement request. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Statement request; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 13 | **Version:** 1.0

Card activation

Explain the approved activation process. Never ask the customer to share the PIN or OTP with the agent or chatbot.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about card activation. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Card activation; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 14 | **Version:** 1.0

Lost card support

Direct the customer promptly to the verified card-blocking channel. After blocking, explain how to report suspicious transactions and request replacement.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about lost card support. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Lost card support; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 15 | **Version:** 1.0

Digital login issue

Use the troubleshooting guide. Do not ask for a password, OTP, recovery code, or remote access to the customer's device.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about digital login issue. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Digital login issue; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 16 | **Version:** 1.0

Failed payment query

Identify the payment type and status safely. Explain that posting, reversal, and dispute timelines depend on the payment method and applicable rules.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about failed payment query. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Failed payment query; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 17 | **Version:** 1.0

Loan application enquiry

Explain stages and document requirements, but do not promise approval, a rate, or disbursement date before formal assessment.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about loan application enquiry. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Loan application enquiry; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 18 | **Version:** 1.0

Loan status enquiry

Provide status only through an authenticated case system. If unavailable, guide the customer to the approved loan operations channel.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about loan status enquiry. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 19 | **Version:** 1.0

Deposit maturity enquiry

Confirm product type, tenure, rate, payout instructions, and relevant dates before giving an estimate. Refer to the approved deposit record for account-specific figures.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about deposit maturity enquiry. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Document reference: VDB-CS-001 | **Section:** 20 | **Version:** 1.0

Fee or rate dispute

Retrieve the effective schedule and customer agreement. Explain the charge basis and route an apparent error for review.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about fee or rate dispute. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 21 | **Version:** 1.0

Complaint versus service request

A service request asks the bank to perform an action; a complaint expresses dissatisfaction with a service, decision, or conduct. Some cases may require both records.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about complaint versus service request. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Complaint versus service request; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 22 | **Version:** 1.0

Complaint acknowledgement

Acknowledge the concern, summarize it neutrally, provide a reference where recorded, and explain the next step.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about complaint acknowledgement. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Complaint acknowledgement; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 23 | **Version:** 1.0

De-escalation

Listen without interruption, recognize the impact, avoid blame, and focus on a safe next action. Do not argue or make unsupported compensation promises.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about de-escalation. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: De-escalation; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 24 | **Version:** 1.0

Vulnerable customer support

Offer reasonable communication support under approved policy without making assumptions. Escalate suspected coercion, exploitation, or urgent safeguarding concerns.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about vulnerable customer support. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Vulnerable customer support; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 25 | **Version:** 1.0

Accessibility requests

Explain available support and route requests to the relevant team. Confirm availability before promising a particular accommodation.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about accessibility requests. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Accessibility requests; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 26 | **Version:** 1.0

Fraud indicators

Urgently route suspected account takeover, unauthorized transactions, impersonation, or credential disclosure to the approved fraud process.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about fraud indicators. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Fraud indicators; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 27 | **Version:** 1.0

Security language

Never ask for or record full PINs, OTPs, full passwords, or card security codes. If a customer volunteers a secret, tell them not to share it and follow incident procedures.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about security language. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Security language; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 28 | **Version:** 1.0

Customer data correction

Correct records only after required verification and through authorized systems. Preserve audit trails and confirmation of changes.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer data correction. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer data correction; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 29 | **Version:** 1.0

Third-party callers

Verify authority before discussing an account with a family member, employer, agent, or other third party.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about third-party callers. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Third-party callers; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 30 | **Version:** 1.0

Deceased customer enquiries

Use the designated bereavement and estate process. Avoid promising immediate release of funds before legal and account requirements are satisfied.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about deceased customer enquiries. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Deceased customer enquiries; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 31 | **Version:** 1.0

Business customer support

Confirm the caller's authority and account mandate before discussing company accounts, transfers, or signatory changes.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about business customer support. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Business customer support; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 32 | **Version:** 1.0

Complaint escalation

If a complaint remains unresolved, follow the current grievance policy and applicable external escalation rules. Do not invent regulator deadlines.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about complaint escalation. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Complaint escalation; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 33 | **Version:** 1.0

Call and chat records

Records should be accurate, relevant, access-controlled, and retained under the approved schedule. Personal notes must not replace required case records.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about call and chat records. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Call and chat records; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 34 | **Version:** 1.0

Quality assurance

Review samples for accuracy, respectful language, verification compliance, correct routing, and clear closure notes.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about quality assurance. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Quality assurance; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 35 | **Version:** 1.0

Service recovery

Where an error is confirmed, explain corrective steps and time estimates supported by the responsible team. Compensation requires approved authority.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about service recovery. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Service recovery; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 36 | **Version:** 1.0

Wrong information correction

If an agent gave incorrect information, correct it promptly, record the correction, and escalate any customer impact.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about wrong information correction. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Wrong information correction; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 37 | **Version:** 1.0

No-answer handling

When information is absent from the approved corpus, state that it is not specified and refer to an authorized channel rather than inventing a policy.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about no-answer handling. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: No-answer handling; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 38 | **Version:** 1.0

Multilingual retrieval

The RAG assistant should retrieve authoritative English source passages, translate faithfully, preserve dates and amounts, and cite document/section metadata where available.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about multilingual retrieval. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Multilingual retrieval; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 39 | **Version:** 1.0

Customer feedback

Capture feedback through approved means and route recurring themes to service quality without exposing personal data in reports.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer feedback. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer feedback; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 40 | **Version:** 1.0

Example: password reset

Guide the customer to the official authenticated recovery workflow. Do not collect credentials in chat.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: password reset. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Example: password reset; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 41 | **Version:** 1.0

Example: disputed fee

Compare the posted fee with the effective schedule and account terms. If unresolved, register a complaint and provide a reference.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: disputed fee. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Example: disputed fee; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 42 | **Version:** 1.0

Example: angry customer

Acknowledge the issue, restate the requested outcome, identify the next step, and avoid arguing about fault before investigation.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: angry customer. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Example: angry customer; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 43 | **Version:** 1.0

Example: missing information

Explain that the available policy does not specify the answer, then route to the policy owner or customer service team.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about example: missing information. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Example: missing information; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 44 | **Version:** 1.0

Customer closure summary

Before closing, recap the action taken, any pending work, expected next contact, and reference number if the system created one.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer closure summary. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer closure summary; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 45 | **Version:** 1.0

Staff responsibilities

Staff remain accountable for actions taken using chatbot suggestions. AI output is not authorization to bypass identity, policy, or approval controls.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about staff responsibilities. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Staff responsibilities; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-CS-001 | **Section:** 46 | **Version:** 1.0

Handbook review

Review at least annually and after major channel, complaint, privacy, or customer-service changes.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about handbook review. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Handbook review; Vedranta Bank; VDB-CS-001; Customer Support; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.
