VEDRANTA BANK

Bank Profile and Corporate Overview

Document ID: VDB-GEN-001

Category: Bank Profile

Version: 1.0 **As of:** 17 October 2026

Headquarters: Coimbatore, Tamil Nadu, India

FICTIONAL DOCUMENT FOR RAG DEVELOPMENT AND TESTING

This document describes a fictional bank created for a demonstration knowledge base. It is not evidence of a real institution, licence, financial product, employment offer, or binding policy. All bank-specific figures are synthetic unless explicitly identified as actual legal requirements.

Document Control and Master Facts

Field	Controlled value
Bank name	Vedranta Bank
Headquarters	Coimbatore, Tamil Nadu, India
Institution type	Fictional Indian commercial financial bank
Customer segments	retail customers, small and medium enterprises (SMEs), corporate clients, agricultural customers, rural customers, and eligible institutions
Owner	Office of Policy and Knowledge Management
Version / as-of	1.0 / 17 October 2026
Contact placeholders	1800-000-VED (fictional demonstration number; not a real helpline); support@vedranta.example (fictional reserved example domain)
Standard customer service hours	Monday–Friday, 9:30 a.m.–5:00 p.m.; Saturday, 9:30 a.m.–1:00 p.m.; Sundays and bank holidays closed, except digital self-service channels
Dataset status	Fictional; for RAG development and testing only

Source precedence

Applicable law and current regulatory directions prevail. Current approved product schedules, signed customer agreements, formal sanction letters, insurer plan documents, and approved HR terms govern their respective subjects. This general document summarizes rather than overrides them.

RAG instruction

Index content with document ID, section title, version, effective date, category, and access level. Treat all contacts and product figures in this synthetic corpus as fictional test values.

Contents and Retrieval Map

The following pages are organized as focused sections so retrieval can identify the most relevant passage. The section title should be stored as metadata for each extracted chunk.

01. Institutional identity and purpose
02. Mission, vision and service principles
03. Headquarters and administrative footprint
04. Customer segments
05. Retail banking overview
06. Small business and SME services
07. Corporate banking overview
08. Agricultural and rural customer services
09. Institutional customers
10. Governance principles
11. Board and executive responsibilities
12. Branch network assumptions
13. Reference branch profile
14. Banking channels
15. Service hours
16. Customer care contacts
17. Official communication and impersonation
18. Products catalogue governance
19. Rates and charges source of truth
20. Customer information and privacy
21. Accessibility and inclusive service
22. Complaint handling overview
23. Service quality and accountability
24. Risk culture
25. Business continuity
26. Technology and digital service principles
27. Third-party service providers
28. Financial education
29. Conflicts of interest
30. Records and document retention
31. Whistleblowing and escalation
32. Policy exceptions
33. Document hierarchy
34. Definitions: customer and account
35. Definitions: credit and sanction
36. Definitions: effective date and version
37. Public versus internal information
38. Customer journey overview
39. Common questions: bank identity

40. Common questions: headquarters
41. Common questions: services
42. Common questions: contact channels
43. Common questions: opening an account
44. Common questions: getting a loan
45. Common questions: complaints
46. Common questions: rates
47. Operational scenario: new customer
48. Operational scenario: contradictory sources
49. Operational scenario: missing information
50. Annual review and ownership
51. Master facts and controlled updates
52. Closing statement and limitations

When answering a question, retrieve the narrowest relevant section and check its context. Do not combine unrelated policy details merely because they occur in the same PDF.

Institutional identity and purpose

Defines Vedranta Bank as a fictional Indian commercial financial bank headquartered in Coimbatore, Tamil Nadu. The bank profile is a simulated knowledge source for RAG testing, not evidence of a licensed institution.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about institutional identity and purpose. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Institutional identity and purpose; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 01 | **Version:** 1.0

Mission, vision and service principles

Mission: make everyday banking understandable, accessible, and dependable. Vision: deliver responsible financial services through well-governed physical and digital channels. Principles include clarity, fairness, privacy, accessibility, and accountability.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about mission, vision and service principles. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Mission, vision and service principles; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 02 | **Version:** 1.0

Headquarters and administrative footprint

The head office is located in Coimbatore, Tamil Nadu, India. Coimbatore is the administrative centre for the fictional institution. Any street address, building, phone number, licence number, or registration identifier not explicitly approved in the master register must not be invented.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about headquarters and administrative footprint. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Headquarters and administrative footprint; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 03 | **Version:** 1.0

Customer segments

Vedranta Bank serves retail customers, small and medium enterprises (SMEs), corporate clients, agricultural customers, rural customers, and eligible institutions. Eligibility and product access vary by product, customer type, verification outcome, risk controls, and applicable requirements.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer segments. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer segments; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 04 | **Version:** 1.0

Retail banking overview

Retail banking includes savings accounts, current accounts where eligible, term deposits, debit cards, domestic transfers, digital access, customer support, and eligible personal credit products.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about retail banking overview. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 05 | **Version:** 1.0

Small business and SME services

SME services may include current accounts, payment collections, business term loans, working-capital facilities, and account support. Credit is never automatic and depends on underwriting and documentation.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about small business and sme services. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Small business and SME services; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 06 | **Version:** 1.0

Corporate banking overview

Corporate customers may access account services, payment facilities, cash-management support, and credit subject to separate agreements, authorized signatories, due diligence, and approved limits.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about corporate banking overview. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Corporate banking overview; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 07 | **Version:** 1.0

Agricultural and rural customer services

Services for agricultural and rural customers may include eligible deposit accounts, payment services, and appropriately assessed credit. Product eligibility and required documents must be explained in plain language.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about agricultural and rural customer services. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 08 | **Version:** 1.0

Institutional customers

Eligible institutions may receive accounts and payment services following verification of legal status, beneficial ownership where applicable, authorized signatories, and purpose of the relationship.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about institutional customers. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Institutional customers; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 09 | **Version:** 1.0

Governance principles

The bank's fictional governance model separates business ownership, risk review, compliance oversight, and internal assurance. No employee should approve a transaction outside delegated authority.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about governance principles. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Governance principles; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 10 | **Version:** 1.0

Board and executive responsibilities

The fictional board sets strategy and risk appetite. Executive management implements approved plans. Department heads maintain procedures and controls. This is an illustrative organization, not a claim about a real company.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about board and executive responsibilities. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Board and executive responsibilities; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 11 | **Version:** 1.0

Branch network assumptions

The planning model assumes 48 branches across selected Indian states (fictional planning figure). This is a fictional figure for the chatbot corpus and must not be represented as a real branch directory.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about branch network assumptions. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Branch network assumptions; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 12 | **Version:** 1.0

Reference branch profile

The fictional reference branch is COI-001 (fictional reference branch), used for test examples only. A production chatbot should retrieve branch-specific information from an approved current directory.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about reference branch profile. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Reference branch profile; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 13 | **Version:** 1.0

Banking channels

Supported channel categories are branches, customer care telephone service, secure internet banking, mobile banking, and approved digital payment channels. A feature is available only if the relevant product terms and channel rules say so.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about banking channels. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Banking channels; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 14 | **Version:** 1.0

Service hours

Standard fictional customer-facing service hours are Monday–Friday, 9:30 a.m.–5:00 p.m.; Saturday, 9:30 a.m.–1:00 p.m.; Sundays and bank holidays closed, except digital self-service channels. Digital self-service availability may differ, and maintenance or payment-network schedules may affect individual services.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about service hours. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Service hours; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 15 | **Version:** 1.0

Customer care contacts

Fictional demonstration contact: 1800-000-VED (fictional demonstration number; not a real helpline); email: support@vedranta.example (fictional reserved example domain). These are placeholders for testing and must never be presented as real contact channels.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer care contacts. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer care contacts; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 16 | **Version:** 1.0

Official communication and impersonation

Customers should verify messages through independently accessed official channels. The bank will not ask a customer to disclose an OTP, PIN, full password, or card security code over an unsolicited call or message.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about official communication and impersonation. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Official communication and impersonation; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 17 | **Version:** 1.0

Products catalogue governance

Product teams own product terms; compliance reviews applicable obligations; policy management controls versions. A brochure cannot override a signed agreement or a later approved schedule.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about products catalogue governance. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Products catalogue governance; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 18 | **Version:** 1.0

Rates and charges source of truth

The approved rates-and-charges schedule controls illustrative rates. Product-specific agreements and current approved schedules take precedence over general examples.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about rates and charges source of truth. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Rates and charges source of truth; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 19 | **Version:** 1.0

Customer information and privacy

Personal information is accessed only for an authorized purpose and shared on a need-to-know basis. The chatbot must not expose another customer's information or internal-only records.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer information and privacy. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer information and privacy; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 20 | **Version:** 1.0

Accessibility and inclusive service

Staff should use clear language, offer appropriate accessible communication where available, and avoid assuming a customer's preferred language or ability.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about accessibility and inclusive service. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Accessibility and inclusive service; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 21 | **Version:** 1.0

Complaint handling overview

Customers may use the fictional complaint route grievance@vedranta.example (fictional reserved example domain) for corpus demonstrations. In a real deployment, replace placeholders with verified contact information and applicable external escalation routes.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about complaint handling overview. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Complaint handling overview; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 22 | **Version:** 1.0

Service quality and accountability

Service teams record requests, acknowledge complaints, provide reference numbers, explain next steps, and avoid guaranteeing outcomes before investigation.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about service quality and accountability. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Service quality and accountability; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 23 | **Version:** 1.0

Risk culture

Employees should escalate suspected fraud, data leakage, conflicts of interest, unexplained discrepancies, and control failures promptly through approved internal routes.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about risk culture. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Risk culture; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 24 | **Version:** 1.0

Business continuity

Critical services have continuity arrangements, recovery ownership, alternate communications, and periodic testing. Recovery time targets must be maintained in the current approved continuity plan.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about business continuity. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Business continuity; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 25 | **Version:** 1.0

Technology and digital service principles

Digital services should use secure authentication, minimum necessary permissions, monitored changes, and clear incident communication. The chatbot does not authenticate or execute financial transactions by itself.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about technology and digital service principles. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Technology and digital service principles; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 26 | **Version:** 1.0

Third-party service providers

Providers must be assessed, contracted, monitored, and given only necessary access. Customer-facing staff should not promise availability that depends on a third party.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about third-party service providers. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Third-party service providers; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 27 | **Version:** 1.0

Financial education

Educational examples should state assumptions, distinguish simple from compound calculations, and avoid treating estimates as personalized financial advice.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about financial education. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Financial education; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 28 | **Version:** 1.0

Conflicts of interest

Employees disclose relevant conflicts, avoid using their role for personal benefit, and follow approval requirements for gifts, outside work, and related-party decisions.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about conflicts of interest. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Conflicts of interest; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 29 | **Version:** 1.0

Records and document retention

Records are retained according to approved schedules and applicable law. Staff should not delete or alter records to avoid review or conceal an error.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about records and document retention. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Records and document retention; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 30 | **Version:** 1.0

Whistleblowing and escalation

Employees may report suspected misconduct through the designated confidential reporting process. Retaliation against good-faith reporting is prohibited under the fictional policy.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about whistleblowing and escalation. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Whistleblowing and escalation; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 31 | **Version:** 1.0

Policy exceptions

Exceptions require documented rationale, risk review, authorized approval, expiry date, and monitoring. Verbal instructions do not replace required written approval.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about policy exceptions. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Policy exceptions; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 32 | **Version:** 1.0

Document hierarchy

Applicable law and regulatory directions prevail. Approved product agreements and current policies govern their subjects. General overview documents explain but do not replace those sources.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about document hierarchy. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Document hierarchy; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 33 | **Version:** 1.0

Definitions: customer and account

Customer means a person or entity receiving or applying for services. Account means a bank-maintained record governed by its account terms. The definitions do not independently establish eligibility.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about definitions: customer and account. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Definitions: customer and account; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 34 | **Version:** 1.0

Definitions: credit and sanction

Credit is a facility subject to approval. A sanction is a formal decision specifying conditions and limits; an application or verbal discussion is not a sanction.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about definitions: credit and sanction. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Definitions: credit and sanction; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 35 | **Version:** 1.0

Definitions: effective date and version

Effective date states when a controlled document applies. Version number identifies a release. A newer version should be used only after confirming approval and scope.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about definitions: effective date and version. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Definitions: effective date and version; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 36 | **Version:** 1.0

Public versus internal information

Public product information may be used in customer answers. Internal controls, security configurations, audit findings, and employee records require access controls and should not be exposed to customers.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about public versus internal information. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 37 | **Version:** 1.0

Customer journey overview

Typical journey: enquiry, eligibility check, application, identity verification, assessment, decision, acceptance of terms, activation or disbursement, servicing, and closure where applicable.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about customer journey overview. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Customer journey overview; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 38 | **Version:** 1.0

Common questions: bank identity

If asked whether Vedranta Bank is real, the chatbot must explain that this corpus describes a fictional bank created for a demonstration and must not imply it is licensed or operating.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about common questions: bank identity. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Common questions: bank identity; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 39 | **Version:** 1.0

Common questions: headquarters

The fictional headquarters is Coimbatore, Tamil Nadu, India. This fact should remain identical across all bank profile documents.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about common questions: headquarters. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Common questions: headquarters; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 40 | **Version:** 1.0

Common questions: services

The bank's fictional service catalogue covers deposit, payment, digital, customer support, and eligible lending services; exact availability depends on product rules.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about common questions: services. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Common questions: services; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 41 | **Version:** 1.0

Common questions: contact channels

Use only verified contacts configured for the deployment. The .example email addresses and demonstration number in this corpus are not real customer service contacts.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about common questions: contact channels. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 42 | **Version:** 1.0

Common questions: opening an account

The customer should review eligibility and required documents, submit an application through an approved channel, complete verification, and wait for confirmation before treating the account as active.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about common questions: opening an account. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Common questions: opening an account; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 43 | **Version:** 1.0

Common questions: getting a loan

A customer may enquire or apply, but approval depends on complete documents, repayment capacity, credit review, verification, and a formal sanction.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about common questions: getting a loan. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 44 | **Version:** 1.0

Common questions: complaints

A complaint should be recorded with the issue, date, channel, and reference number. Customers should not submit passwords or OTPs as evidence.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about common questions: complaints. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Common questions: complaints; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 45 | **Version:** 1.0

Common questions: rates

Rates in this corpus are illustrative fictional rates. A customer-facing production system must use a current approved schedule and display the applicable effective date.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about common questions: rates. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Common questions: rates; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Document reference: VDB-GEN-001 | **Section:** 46 | **Version:** 1.0

Operational scenario: new customer

A new customer asks about services. The assistant identifies the relevant segment, provides a high-level explanation, then retrieves the appropriate product manual for exact terms.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about operational scenario: new customer. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Operational scenario: new customer; Vedranta Bank; VDB-GEN-001; Bank Profile; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.
