Source precedence

Applicable law and current regulatory directions prevail. Current approved product schedules, signed customer agreements, formal sanction letters, insurer plan documents, and approved HR terms govern their respective subjects. This general document summarizes rather than overrides them.

RAG instruction

Index content with document ID, section title, version, effective date, category, and access level. Treat all contacts and product figures in this synthetic corpus as fictional test values.

Contents and Retrieval Map

The following pages are organized as focused sections so retrieval can identify the most relevant passage. The section title should be stored as metadata for each extracted chunk.

Purpose and scope

This fictional handbook describes indicative employee benefits for Vedranta Bank staff. Employment contracts, applicable law, and current approved HR policies prevail.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about purpose and scope. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

RAG retrieval anchors

Search terms: Purpose and scope; Vedranta Bank; VDB-HR-001; Employee Benefits; process; eligibility; required documents; approval; exception; escalation; effective date.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Eligibility confirmation

HR confirms benefit eligibility from the employee's recorded category, joining date, location, grade, and applicable plan. Managers should not promise a benefit outside the approved plan.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Salary and benefits distinction

Salary is compensation for work; benefits are additional employer-provided arrangements. Each item should be shown separately in the offer or applicable statement.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Document reference: VDB-HR-001 | **Section:** 07 | **Version:** 1.0

Dependent coverage

Eligible dependents may be covered if declared within the plan's enrolment window and accepted under insurer rules. HR should confirm permitted relationship categories.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Document reference: VDB-HR-001 | **Section:** 08 | **Version:** 1.0

Insurance exclusions

Coverage is governed by the insurer's policy wording. Employees should review exclusions, sub-limits, waiting periods, claim documents, and network conditions.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Medical claim process

Employees use the insurer or approved administrator's current claim route, submit required evidence, and track the claim using its reference. HR cannot guarantee insurer approval.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Emergency medical support

For emergencies, seek appropriate medical care first and use the plan's verified assistance route when practical. Do not delay urgent care solely to obtain HR authorization.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Learning allowance

The illustrative annual learning allowance for eligible permanent employees is ■20,000, subject to pre-approval, role relevance, evidence of expense, and budget availability.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about learning allowance. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.

Consistency and control note

Use the bank-wide master profile for institutional facts. For rates, fees, leave entitlements, insurance limits, contact placeholders, and service hours, use the centrally agreed figures and the relevant specialized document. A newer approved source or applicable law takes precedence over a general explanatory section.

Change in family status

Employees should update dependent or beneficiary details through a secure HR channel within the applicable plan window.

Operational guidance

For this topic, staff or the chatbot should first identify the customer's or employee's actual question, confirm the relevant product or policy scope, and consult the current approved source. The document is a general guide and should not be used to infer missing eligibility, rates, dates, approvals, or account-specific facts.

Recommended handling steps

1. Identify the request type and the information needed to answer it.
2. Check the current policy version, effective date, and relevant customer or employee category.
3. Explain the process in plain language and distinguish general guidance from a decision on an individual case.
4. If verification or an authorized system is required, direct the user to that approved route.
5. Record or cite the relevant source and escalate ambiguity rather than inventing an answer.

Examples and exception handling

Example: a user asks about change in family status. The assistant provides the relevant general rule, explains any condition or exception in the source, and avoids asserting a personalized outcome without authorized evidence. If the source is silent or conflicting, the assistant states that the information requires confirmation and routes the query to the responsible team.
